NOTES TO FINANCIAL STATEMENTS

Natchitoches Parish Communications District
Notes to Financial Statements
December 31, 2008

INTRODUCTION

Natchitoches Parish Communications District, of Natchitoches Parish, Louisiana was created on July 28, 1983, by Ordinance #112 of the Natchitoches Parish Police Jury. The District is charged with forming and operating an emergency response system for Natchitoches Parish to be operated as a "911" system. Numerous other authorities and governmental entities within the Parish of Natchitoches (many of which include "Natchitoches" in their name) have been excluded from these statements because control or financial responsibility by the Natchitoches Parish Communications District is remote.

1. Summary of Significant Accounting Policies:

A. Basis of Presentation:

The accompanying general purpose financial statements of the Natchitoches Parish Communications District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity:

As the governing authority of the parish, for reporting purposes, the Natchitoches Parish Police Jury is the financial reporting entity for Natchitoches Parish. The financial reporting entity consists of (a) the primary government (Police Jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Natchitoches Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and

Matchless Parish Communications District
Notes to Financial Statements

- a. The ability of the police jury to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
2. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because of criteria number one above, the Matchless Parish Communications District was determined to be a component unit of the Matchless Parish Police Jury, the reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general government services provided by the governmental unit, or the other governmental units that comprise the reporting entity.

C. Fund Accounting

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain governmental functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the District are classified as governmental funds. Governmental funds account for the District's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds of the District include:

1. General Fund - the general operating fund of the District and accounts for all resources, except those required to be accounted for in other funds.

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resource measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by the governmental funds. The governmental funds use the following practices in recording revenues and expenditures:

Taxes and interest are recognized when they become measurable and available and are therefore considered to be susceptible to accrual.

Expenditures are generally recognized when the related fund liability is incurred. Purchases of various operating supplies are regarded as expenditures at the time of purchase.

E. Budgets

An annual operating budget is adopted for the General Fund. The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the beginning of each fiscal year, the Treasurer prepares a proposed budget and submits it to the Board of Commissioners.
2. The Board of Commissioners approves the budget, or amends it as necessary.
3. The approved budget is held open for public inspection.
4. Budget appropriations lapse at the end of the year.

F. Encumbrances

The District does not employ the use of encumbrance accounting.

G. Cash & Cash Equivalents:

For reporting purposes, cash and cash equivalents include cash, demand deposits, time deposits, money market accounts, and certificates of deposit. Under Louisiana law, the District may deposit funds in demand deposits, time deposits, money market accounts, and certificates of deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

H. Fixed Assets:

Fixed assets are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized in the general fixed assets account group. Public domain or infrastructure are not capitalized. Interest costs, if any, incurred during construction are capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost or estimated cost if historical cost is not available.

I. Compensated Absence:

The District does not carry forward or accrue compensated absence.

J. Long-term Obligations:

Long-term obligations reported to be financed from governmental funds are reported in the general long-term obligations account group. Expenditures for principal and interest payments for long-term obligations are recognized in the governmental funds when due.

K. Total Columns on Statements:

The total columns on the statements are captioned "Management Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

2. Cash and Cash Equivalents:

At December 31, 2009, the District has cash and cash equivalents totaling \$400,189 that is held in checking accounts and as CDs at banks. These deposits are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities issued by the (trust agent) bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on

Revenues from the communications tax are recognized when collected by the District. South Central Bell and Cingular-Pearson Bell telephone companies bill and collect the tax through their monthly telephone bills. For the year ended December 31, 2000, tax collections were \$163,888.
